## Skills

- **Strong:** JavaScript, HTML5, CSS3, PHP, AJAX, APIs, Axios, jQuery, OOP, Flexbox, Agile, Scrum
- **Experienced:** MySQL, Materialize, Bootstrap, JSON, UI/UX, React, Redux, JSX, Node.js, Sass
- **Tools:** Git, GitHub, Postman, MeisterTask, Jira, Figma, AWS, Chrome Dev Tools

## Applications

### PocketStatz

April 2019

*Single page application that displays the most recent game scores and player stats for NBA and NHL teams*

- Made multiple **PHP cURL** requests to an **API** to pull past game data, as well as live data when available
- Incorporated **Sass** and **Materialize** to optimize the application's **UI/UX**
- Utilized **React** and **Redux** to render different components depending on whether the user is signed in, or using the site as a guest

### National Park Finder

March 2019

*An application to display current weather, recent news, and images from the national parks in California*

- Utilized **AJAX** calls to four unique **APIs** to gather information as requested by the user
- Implemented the **Bootstrap** library to present the information in an easy to read format
- Created **media queries** to ensure information will always display properly, regardless of device/browser

### Memory Match Game

February 2019

*A cartoon-themed memory match game for all ages featuring live game statistics*

- Utilized **HTML5**, **CSS3**, and **Flexbox** for the structure of the game and "About" pages
- Employed **JavaScript** and **jQuery** to give the game its functionality

## Work Experience

### Clinical Development Analyst at Applied Medical – Orange County, CA

January 2017-November 2018

- Provided product support for over 250 devices, as well as maintained a database of competitive devices
- Trained new employees regarding the usage and capabilities of these devices
- Collaborated with other teams to ensure product labeling is up to date with country-specific regulations
- Consolidated recently published literature, internal sales data, customer experience reports and more into clinical evaluation reports for each product line

### Insurance Coordinator at EnVision Optometry – San Luis Obispo, CA

July 2015-August 2016

- Billed insurance claims, posted payments, and organized insurance authorizations
- Performed autorefractions, pressure checks, perimetry tests, and retinal imaging for patients
- Assisted with various administrative responsibilities around the office

## Education

- Cal Poly San Luis Obispo, BS in Materials Engineering
- LearningFuze Accelerated Web Development Program
